

Welcome to the 2009 Versadex Conference

Austin, Texas, September 27th – 30th 2009

FEES AND SPEAKER REIMBURSEMENT

Due to increasing costs, the User Conference Steering Committee felt it prudent to increase the registration fees to \$575 U.S. for a 3-day registration, \$385 U.S. for a 2-day registration, \$195 U.S. for a 1-day registration and \$300 U.S. for a companion package.

Speakers will register with other delegates and pay full rates up front. At the end of the conference, the speakers will be tallied up and a rebate will be sent to each speaker's agency.

The rebate will be calculated as follows:

- On any day you speak/present, regardless of the duration, that day is compensated so your agency receives a credit of \$195 U.S. or 1 day's fees
- If you speak at a workshop, which generally requires more preparation than 20 minutes at plenary, then you get a credit worth 2 days of fees or \$385 U.S. However, if two of you speak at a workshop, then the rebate is split between you.
- Any combination of presentations (2 or more of anything) is worth a credit of the full registration \$575 U.S.
- A double-session workshop, (one with a coffee break) is worth a credit of a full registration (subject to splitting it if more than one person is involved with the workshop)

NO REFUND POLICY

Please note that the registration and companion program fees are non refundable, though they are transferable to another person available to attend the conference.
