

Announcement  
April 2008

## York Region FireCAD Project

The CAD system currently in use at the York Regional Police will be extended to support FireCAD. Two agencies will be served initially by the FireCAD system - the Richmond Hill Fire Department, and the Vaughan Fire and Rescue Service.

The project will begin over the next few weeks. Both Fire services will operate out of their own call-taking/dispatch centre; a paging interface is also planned. The implementation will be similar to the one in Ottawa, where the Police and Fire services share the CAD server resources, but operate out of separate communication centers.

The Richmond Hill Fire Department provides emergency services to the residents of Richmond Hill, Newmarket, Aurora, Georgina and East Gwillimbury. There are eight fire halls servicing a population of about 369,000.

Vaughan Fire and Rescue Service provides emergency services to the residents of the City of Vaughan and King Township. Eight fire halls service a population of about 265,000.
