CITY OF CHANDLER, AZ SELECTS VERSATERM

The City of Chandler Arizona has selected Versaterm to implement an integrated law enforcement system consisting of CAD, Mobile, RMS and MRE. Prior to contract signature, Versaterm and Chandler are working together on the scope and definition of the project. As is our custom, the completed detailed scoping documents will then become part of the contract.

Chandler Arizona is a growing city of 250,000 in the Phoenix metropolitan area. As well as being a winter resort, Chandler has a healthy and diverse economy which includes electronics and aerospace industries. The City of Chandler Police Department consists of 340 sworn officers and over 170 civilian personnel. The Department handles approximately 161,900 calls for service, producing 60,812 reports.

Once the preliminary scoping phase of the project is complete and the contract is signed, the implementation of the project will begin. In addition to the CAD, RMS and mobile components, this project includes the Versadex DataMart which supports a sophisticated set of crime analysis tools and myVersadex which "pushes" desired information right to a manager's desktop.

Versaterm is delighted to welcome Chandler to our family and to the growing family of Arizona customers. Versaterm looks forward to Chandler's implementation and "go live", but most of all, to a long and successful working relationship. Welcome aboard!
