

# School Safety Solutions

## CASEWORX FOR SCHOOLS

### Improve Student Well-Being through Early Intervention

Today, School Safety requires early intervention and support programs to prevent violence and self-harm in schools. A proactive approach to Behavioral Threat Assessment and Management (BTAM) includes following best practices for identifying concerning behavior, investigating, assessing, and managing a student's well-being. The Versaterm School Safety Solution powered by FivePoint Solutions makes it easier for your Threat Assessment Teams to recognize early warning signs, document information, and develop a plan to manage student well-being before a threat becomes imminent. By combining a proven case management platform and an integrated, multi-database search portal, we provide a complete solution for threat assessment teams to improve outcomes for at-risk students and create a safe school environment.

FivePoint Solutions is a part of Versaterm, a global public safety solutions company helping agencies transform their organizations to meet tomorrow's mission-critical and community needs today.

Gather and Securely Store Critical Case Information

Assess and Document Student Risk Level

Manage Intervention Plans, Increase Student Well-Being

Integrated, Multi-Database Search Portal

CaseWorX is a configurable case management solution designed for school threat assessment teams to recognize and address concerning behaviors while following best practices. With proper case management, your multidisciplinary threat assessment team can efficiently document and develop individual plans for early intervention. CaseWorX takes a holistic approach to student well-being and safety by allowing schools and communities to work together for improved individual outcomes.

## Gather and Securely Store Critical Case Information

### Centralized Platform

Remove communication silos by importing existing records and automating data entry from multiple systems, including student information systems, law enforcement, anonymous tip lines, incident reporting, and juvenile justice systems.

### Documentation of Low-Level Concerns

Record and view any minor concerns from staff members about a student's behavior to connect the dots and identify risks before they become safety threats.

### Digital Document Repository

Minimize the risk of data loss and reduce the amount of time spent searching for documents by managing your school safety and intervention paperwork and forms digitally in one location.

### Role-Based Security and Access Control

Maintain student and school information security by providing the right information to the right people at the right time.

## Assess Student Risk Level

### Integrated Behavioral Threat Assessment Best Practices

Incorporate your team's workflow, forms, and processes while adhering to CSTAG, NTAC, and other current or future threat assessment models and guidelines.

### Student Information Documentation

Record, review, and manage student data easily to evaluate potential school safety risks more quickly.

### Multi-Database Search Portal

Leverage CaseWorX's proprietary federated search to quickly pull information from disparate, external data sources while maintaining data security and retention compliance.

### Consistent Student Threat Assessment Reports

Quickly generate a student's case timeline to gain insights into key events.

## Manage Intervention Plans, Increase Student Well-Being

### Guided Student Well-Being Process

Follow the student well-being behavior assessment process through a personalized dashboard to ensure students receive needed support.

### Improved Student Success

Create and follow individualized intervention plans to redirect students from a path to violence or self-harm.

### Information Sharing for Multi-Jurisdictional Teams

Securely share pertinent student intervention and risk details across different schools, districts, or community threat assessment partners.

### Trend Identification

Analyze case data and search results to assess and develop individual plans to improve student well-being and safety.

### About Versaterm

Versaterm is a global public safety solutions company helping agencies transform their organizations by providing innovative solutions, expertise, and an unwavering dedication to customer service. Formed in 1977, we are on a journey to build an ecosystem that will enhance community safety by creating purposeful integrations across the public safety spectrum. We deliver intuitive tools developed for public safety agencies, forensic labs, court systems, schools, and other institutions. Our selective growth strategy focuses on improving customer and user workflows for more efficient and effective operations, leading to better service and more just outcomes.
